Registered Professional Landscape
Architect

- State of New York

PROFESSIONAL AFFILIATIONS

American Society of Landscape
Architects (National and New York
Chapters)

As a Senior Associate and Senior Project Landscape Architect with 14 years' experience at Insite, Dawn is involved in a number of the firm's site development and planning projects. She has worked on mixed use developments, multi-family housing, public park / recreation, commercial, residential subdivision, hospital and campus projects. Her previous design experience includes work on public gardens, campus and institutional projects and she has a 15-year foundation in her family's nursery / landscape business. Dawn's experience and design abilities make her a perfect fit for Insite's more complicated projects.

Dawn's responsibilities on individual projects include site layout and design, planting design and materials selection, grading design, sediment and erosion control and lighting design, wetland mitigation plan development, and wetland permitting. Dawn represents projects before municipal boards, directs site plan and construction drawing preparation, and conducts landscape architectural construction oversight.

PROJECT HIGHLIGHTS

Eastdale Village: Poughkeepsie, NY

- Insite provided engineering and landscape architectural services for a significant mixed-use development. Dawn oversaw the design and development of the site plans and construction drawings for the landscape improvements, including pedestrian access, parking, overall hardscape, site lighting and landscape design. These improvements were integrated into a new urban design creating a live, work, play environment. Dawn continues to work with the developer / contractor during construction to ensure the complicated design elements are properly integrated into the project.

Memorial Plaza / Manville Road: Pleasantville, NY

- Insite provided engineering and landscape architectural services for the planning and design of the Memorial Plaza / Manville Road improvements. Dawn contributed to the pedestrian and streetscape improvements to improve the overall function of a busy downtown Village area.

Tibbetts Brook Park, Yonkers, NY

- Insite was the engineer, surveyor and landscape architect for a park improvement project involving parking, stormwater management improvements and rehabilitation of existing facilities. Dawn managed the preparation of the site plans and is the main point of contact during construction. The landscape architectural components involved new parking improvements, pedestrian access, accessibility and overall park enhancements.

Northern Westchester Hospital: Mt. Kisco, NY

- Insite has provided a full array of services on numerous projects on the hospital campus. Dawn has been involved with site design, landscape design and construction oversight for a variety of projects on this hospital campus located in a busy Village area.
