

Jeff is Vice President and Principal Surveyor at Insite, and manages the professional land surveying and mapping services offered by Insite. With over 22 years of experience in the land surveying field, he has been involved in all phases of land surveying work. Jeff manages the day to day operations of the field and office personnel on numerous projects in New York and Connecticut, including commercial, institutional and municipal projects, residential, estate lots, equestrian facilities, and large tract surveys. Past experience includes owning and managing a reputable land surveying firm serving in Westchester, Putnam, Dutchess, and Fairfield Counties. The application of advanced technology has been a long time commitment by Insite. Jeff has been instrumental in advancing technology in survey operations. He continues to refine operations with GPS surveying, use of robotic total stations, data collection line coding and unmanned aerial surveying.

EDUCATION

BS Financial Management
Clemson University, 1995

PROJECT HIGHLIGHTS

North Salem Open Land Foundation: North Salem, NY

- Insite’s survey work was instrumental in helping NSOLF obtain its accreditation by the Land Trust Accreditation Commission. Jeff is responsible for the management of project surveying support services for NSOLF’s 25 properties encompassing 748 acres including initial site surveying and property line staking.

Lake Plaza Shopping Center: Mahopac, NY

- Insite provided survey support for a major renovation of the shopping center. Jeff’s responsibilities included oversight of the preparation of boundary and topographic surveys of the entire site, wetlands mapping and mapping of an underground fire suppression tank, construction layout, and as-built surveys.

Woodlawn Cemetery: Bronx, NY

- Insite prepared topographic mapping and layout for construction of cemetery plots in the Bronx. Jeff managed surveying tasks for multiple phases of cemetery expansion.

Estate Parcels in Westchester, Putnam and Dutchess Counties

- Insite provides land surveying services for many of the large estate parcels in the region. Jeff is responsible for the oversight of surveying activities including boundary surveys, topographic mapping, wetland mapping, bathymetric surveying, photogrammetry, GIS mapping, construction layout, as-built surveys, lot line change maps and compilation surveys.

Putnam County Court: Carmel, NY

- Insite has been retained to provide expert testimony on a variety of property boundary disputes. Jeff’s services have been retained by both counsel and the court to provide expert witness testimony and summation reports for property boundary line disputes.
