

Insite Engineering, Surveying & Landscape Architecture, P.C. (Insite) is seeking applicants for the **full-time** position of **Junior Survey Technician** with 0-3 year of experience.

Insite, is a mid-sized, multi-disciplinary firm offering Engineering, Surveying and Landscape Architecture services. We are located in Carmel, New York, conveniently serving southeastern New York and western Connecticut. Our company philosophy is to deliver quality services in a timely fashion, giving full consideration to cost effective solutions.

The staff at Insite is led by experienced professionals who have managed thousands of assignments to successful completion. The entire staff exhibits a special pride in their work as experts in their respective fields, and also in collaborating on multi-discipline design teams. Insite's staff is supported by a variety of advanced equipment and technology including computer aided design (CAD) systems, geographic information systems (GIS), fully automated survey data collection, global positioning systems (GPS) surveying and drone (UAV) data collection & mapping.

Insite's mission has remained consistent since our inception in 1989; deliver prompt, professional services driven by value and our client's needs. At Insite, we make commitments you can count on, and deliver solutions you can build on.

Responsibilities Include:

- Accompanying a two or three person survey crew under the direct supervision of an experienced Senior Survey Technician (party chief).
- Performing routine professional land survey work using accepted surveying practices and equipment.
- In the field, operate various modern instruments including Robotic Total Stations & GPS Receivers, clear brush, drive stakes, carry equipment through uneven terrain, take detailed notes, and make sketches.
- Utilizing various data collection programs to gather, retrieve and interpret survey data, and perform computations as required.

Qualifications:

- Currently enrolled in or recent graduate of Survey related program.
- Applicable experience working with GPS devices, data collectors and/or Total Station preferred.
- Experience with Carlson and/or Leica equipment and software preferred.
- Ability to work well on a team.
- Valid Driver's License.

Abilities:

- Strong mathematical and computer skills.
- Comfortable working in an outdoor environment.
- Attention to detail, promptness, self-motivation and dependability.
- Problem solving skills.

Insite is looking for people who enjoy using their skills and experience to solve challenging technical problems and perform interesting projects. You can accomplish this while working with a team of professionals who are equally motivated to provide high levels of service to our clients. Insite offers you a small firm work environment with large firm opportunities. Professional development is encouraged.

We offer a competitive benefits package including, medical and dental insurance, long term disability, professional development, 401K Retirement Plan, Profit-Sharing Plan, and more.

If this sounds like an opportunity for you, please email your resume to Jeff DeRosa at jderosa@insite-eng.com
